

Professional Indemnity Insurance for financial service providers offered by Liberty Mutual Insurance Europe Ltd.

For financial service providers a Professional Indemnity Insurance is becoming more and more important, particularly in economically difficult times, as lawsuits (might) become more frequent and therefore indemnity payments and litigation costs increase as well. Those costs can be ruinous, especially for small and medium-sized companies.

For these reasons the Federal Council of Switzerland plans in the upcoming regulations concerning the financial market legal system (FinSA and FinIA) that an asset manager and an investment advisor must have a Professional Liability Insurance.

Liberty Mutual Insurance Europe Ltd. (Zürich Branch) offers Professional Indemnity Insurance tailored for the individual requirements of financial service providers.

The VQF is convinced that the Professional Indemnity Insurance offered by Liberty Mutual Insurance Europe Ltd. is preparing the financial service providers for the upcoming challenges.

As a VQF Member you can benefit from the following attractive preferential terms:

- Simplified risk assessment (questionnaire)
- Full cover for 18 months at the price of 12 months
- Additional insurance fee discounts up to 20% to comparable offers
- Attractive combination with D&O liability-protection and fidelity insurance
- Fast and highly qualified damage settlement with free choice of lawyer
