1.2 Admission audit

If an admission audit is ordered by the **SRO VQF**:

Admission audit according to expenditure, usually in the range of	CHF 750 to CHF 3,000	plus VAT
---	-------------------------	----------

2. Membership fee and annual fees

2.1 Membership fee for active and passive members of the VQF

Annual membership fee	CHF 400	plus VAT
-----------------------	---------	----------

2.2 Supplementary annual fee for active members

In addition to the annual membership fee, SRO members are subject to an annual supplementary fee. For traditional financial intermediation activities (e.g. acting as a body of a domiciliary company, engaging in credit transactions, providing services related to payment transactions, trading activities, or asset management), an AMLA file fee is due (see section 2.2.1). For business that deviate from traditional financial intermediation, or if no AMLA files are maintained, an AMLA turnover fee applies instead (see section 2.2.2). In any case, the minimum fee (see section 2.2.3) is payable if the AMLA file fee or the AMLA turnover fee does not reach or exceed that amount.

2.2.1 AMLA file fee

The AMLA file fee is calculated retroactively each year and is based on the number of AMLA files maintained as of 1 January of the relevant calculation year, plus all AMLA files newly opened by 31 December of that same year—that is, on every AMLA file maintained during the calculation year. This fee is payable in full for the year of admission. The AMLA file fee for the year of termination of membership is calculated based on the last number of AMLA files reported by the member. A member may report to VQF the actual number of AMLA files maintained during the year of termination. In such case, VQF may order a plausibility check at the resigning member. If VQF is no longer able to verify the plausibility of the AMLA file information from the resigning or already resigned member, the file fee may be calculated - regardless of any information provided for the year of termination - on the basis of the last number previously reported by the member.

Segmentation according to the number of AMLA files:
files:

1 – 100	AMLA files	CHF 30	plus VAT
101 – 500	AMLA files	CHF 20	plus VAT
501 and more	AMLA files	CHF 10	plus VAT

For members maintaining more than 1,000 AMLA files, the VQF SRO may determine the applicable AMLA file fee. As soon as the member falls below the threshold of 1,000 AMLA files, any special agreements cease to apply and the rates of this Fee Regulation apply.

2.2.2 AMLA turnover fee

If the member operates a business model that differs from traditional financial intermediation (e.g. acting as a body of a domiciliary company, credit transactions, services related to payment transactions, trading activities, or asset management), or if no AMLA files are maintained, or upon the member’s request, the VQF determines a fee based on the turnover generated in the business areas subject to the AMLA within a financial year. This annual turnover fee is calculated on the basis of the actual turnover, or in the year of admission, on the estimated turnover for that year. The fee is payable in full for both the year of admission and the year of termination of membership.

The member must report its turnover for the preceding calendar year to VQF by the end of January each year. The AMLA turnover fee for the year of termination is calculated on the basis of the last turnover figure reported by the member. The member may report to VQF the actual turnover in the year of termination. In such case, VQF may order a plausibility audit at the resigning member. If VQF can no longer verify the turnover data of the resigning or already resigned member, the AMLA turnover fee may be calculated—regardless of any figures provided for the year of termination—based on the last turnover data previously reported by the member.

The AMLA turnover fee reflects the scale of the member’s business. The turnover fee is determined as set forth below and is fixed by the VQF SRO within the given fee range, taking into account the specific characteristics of the member’s business model:

Annual turnover in CHF:

Annual fee in CHF:

0-100,000	500-1,500	plus VAT
100,001-250,000	1,500-3,000	plus VAT
250,001-500,000	3,000-5,000	plus VAT
500,001-1,000,000	5,000-7,500	plus VAT
1,000,001-2,000,000	7,500-10,000	plus VAT

For annual turnovers exceeding CHF 2 000 000, as well as for members with group structures, the VQF SRO determines the applicable turnover fee upon request and after consultation with the member.

2.2.3 Minimum fee
